Hi,

I am Salim Rana. I am working on Envato from last 6 years. And received payment from Payoneer but from June 2023 I decided to withdraw directly from my account. Payment already made 16th 2023 and payment complete time is 23 June. But the amount 1333.07 USD 139908.80 tk not loaded.

I have contact Envato marketplace support about this payment. And they said from there payment is completed. Also they said that contact with bank Asia for payment.

I have forwarded my payment mail from Envato.

Here is my bank details:
